

GDS SMART

Migration to the New Server

1. Preparations

- A. Tablet requirements
- B. Disabling Play Protect
- C. Wi-Fi which allows access to external website
- D. To save current license key
- E. Remove previous resources(selective)

2. Installation

- A. Download Smart Launcher v.1.220
- B. Authenticate with Your License Key and ID
- C. Download resources and Installation
- D. Run GDS SMART and download remaining updates

This migration is essential for continued access and usage of GDS Smart (Available from 17-Oct-2024)

This migration addresses recent server-related issues, including installation/update failures, irregular authentication errors, delayed e-report synchronization, and functionality failures in S/W management and ECU Upgrade.

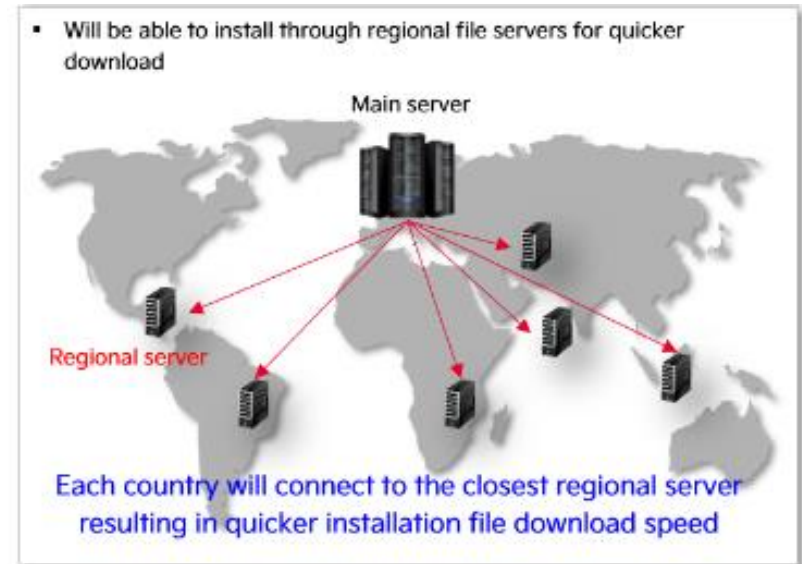

■ Here is what you need to know:

1. Benefits of the New Server

- Download speed
- System reliability
- Stability for updates and installations
- Global performance

2. Smart Launcher Update to 1.220

- Estimated installation time is as follows
 - 30 minutes for current users
 - Up to 1 hour for beginners.
 - ▶ Installation time may vary depending on user's network connected.

**For optimal installation results,
please reboot your tablet before proceeding**

Please make sure to prepare proper tablets for installation.
