

■ Download update resource files with the globe icon on the main home and tap “installation”.

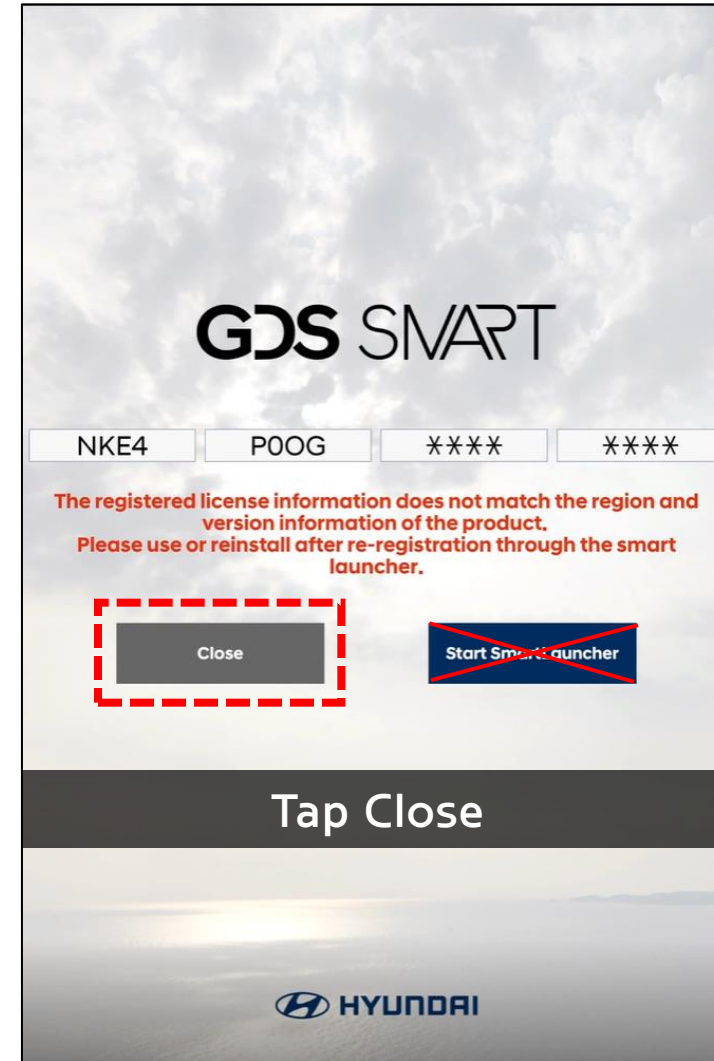

■ Smart Launcher will be operating and installing update resource files on your tablet.

Please tap “Close” if you encountered Error screen as shown below.

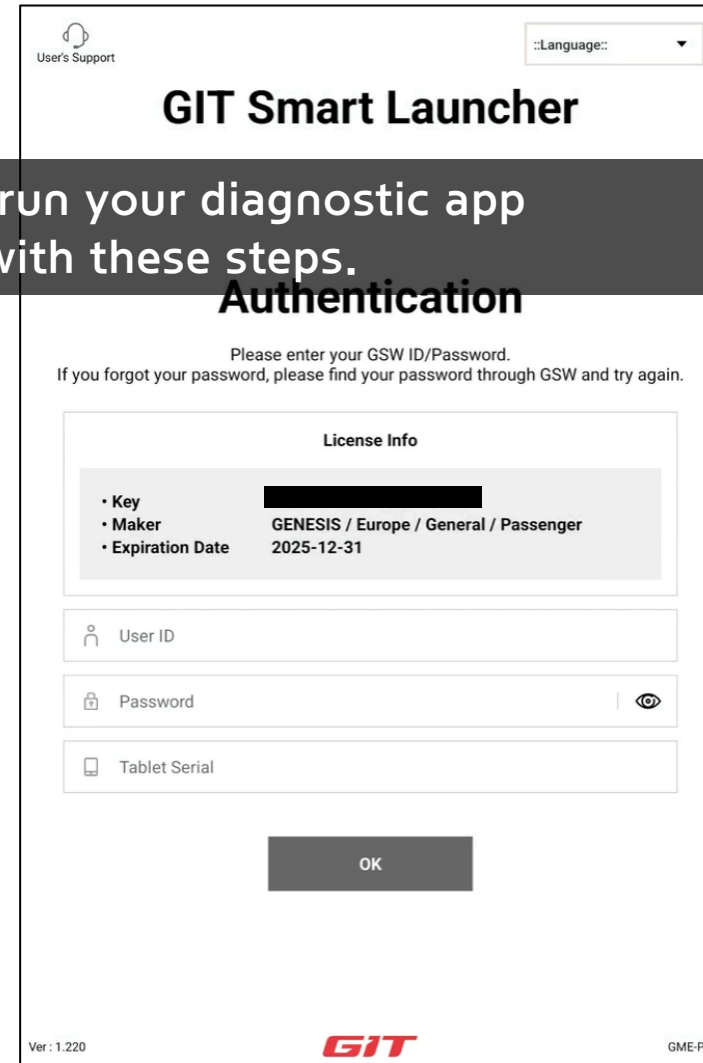

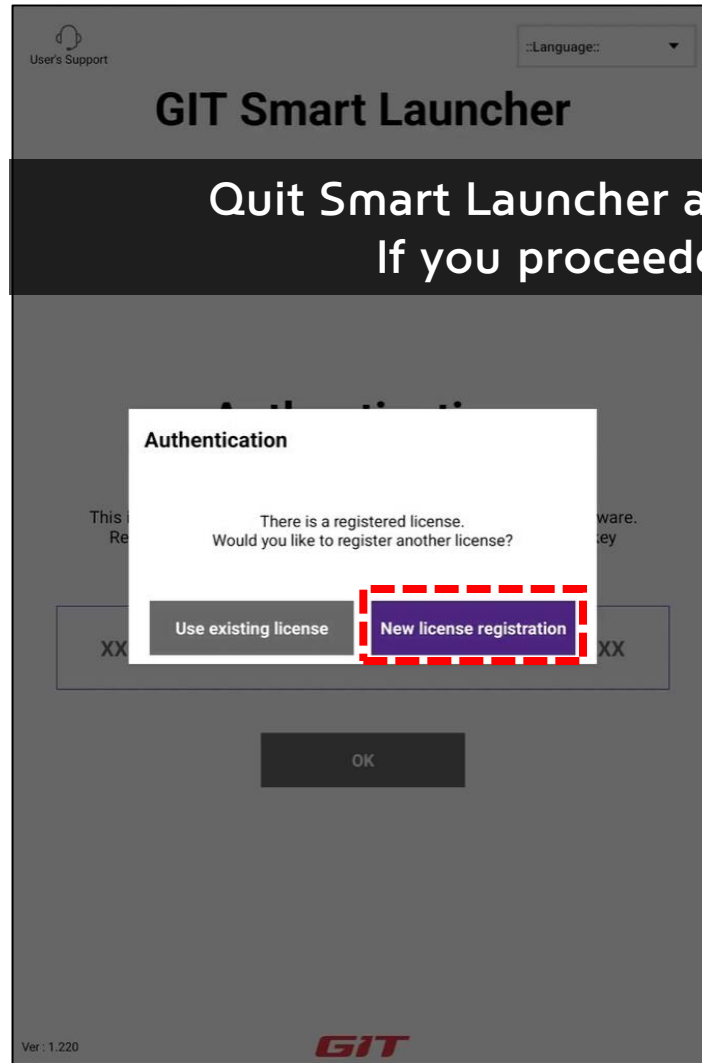

Do NOT tap “Start SmartLauncher”, or it will removes all installed recource and reinstalling diagnostic app.

The attached images are displayed identically regardless of the type of diagnostic app.

- If you have accidentally tapped **“Start SmartLauncher”**, it will move on Authentication step. Do Not proceed with nothing, just terminate Smart Launcher, and run diagnostic apps.

The attached images are displayed identically regardless of the type of diagnostic app.

Quit Smart Launcher and run your diagnostic app
If you proceeded with these steps.
