REVISION

Rev	Date	Details
1	24-Oct-2024	 Smart Launcher updated to 1.238 ① Removed the beginner section ② Added status icon of Internet Update

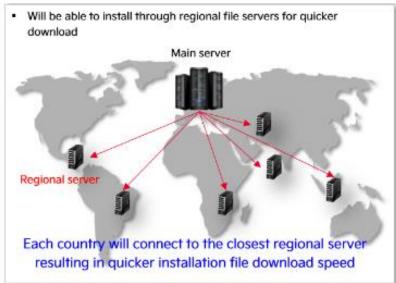

This migration is essential for continued access and usage of GDS Smart (Available from 17–Oct–2024)

This migration addresses recent server-related issues, including installation/update failures, irregular authentication errors, delayed e-report synchronization, and functionality failures in S/W management and ECU Upgrade.

Here is what you need to know:

- 1. Benefits of the New Server
 - Download speed
 - System reliability
 - Stability for updates and installations
 - Global performance
- 2. Smart Launcher Update to 1.238
 - Estimated installation time is as follows
 - 30 minutes for current users
 - Up to 1 hour for beginners.
 Installation time may vary depending on user's network connected.

For optimal installation results, please reboot your tablet before proceeding

Preparation

Please make sure to prepare proper tablets for installation.
