The background is a dark navy blue. It features a large, faint, light-blue concentric circle pattern centered in the upper half. In the top-left and bottom-left corners, there are decorative clusters of small, light-blue dots arranged in a grid-like pattern, with some dots missing to create a sparse, starry effect.

1.

Introduction

A. Outline

DCS analyzes your driving behavior and monitor the vehicle for trouble codes. When problem is detected it will automatically send data to the MyKIA+ App. Moreover it also provides a convenient way to reserve a service to KIA dealers.

※ The DCS module and OBD adapter are mounted on the OBD port together. They record driving history, mileage, vehicle status, trouble codes and send data to your mobile device.

B. Contents of Collected Data

1. Vehicle information: vehicle identification number (VIN), vehicle number, odometer (ODO), date of purchase, insurance period
2. Mobile device information: number, Mac Wi-Fi, model, OS version, UUID, GPS (personal location data)
3. Diagnostic module information: Bluetooth Mac, serial number
4. Favorite dealership information: service center information
5. Driving information: distance, travel time, average fuel efficiency, fuel consumption
6. Driving history: distance, travel time, average fuel efficiency, fuel efficiency
7. Others: battery status, connection pressure, DTC code, phone number

C. App Download

In order to download MyKIA+ Application, please search "MyKIA+" in App Store or Google Play Store.

※ Minimum Specification

OS	Minimum Specification
Android	Over 4.3
iOS	Over 6.0

The background is a dark navy blue. In the upper center, there are three concentric circles in a lighter shade of blue. In the top-left and bottom-left corners, there are triangular areas filled with a pattern of small, light-colored dots.

2. Login

A. Module Settings and Vehicle Verification

1. If you don't have My KIA+ account, please proceed MyKIA+ registration first.
2. Check module information connected to the vehicle and VIN information.

1. Registration

2. Agree on personal information processing policy & terms and conditions of use
3. Agree on the news provided by KIA

4. If you have a module - Move to module connection screen
5. No module - Move to registration screen

6. Start module searching (Following "4" step)

3. Verify vehicle by operating basic functions.

Searching module

Module searching completed

Check vehicle status before operating the vehicle

Progress 3 Step vehicle operation then verification is completed

B. Create an Account

- ♦ Enter user and vehicle information

Enter ID(Email) and check ID duplication.
Verify your email address entering verification code.

Enter user information.

Enter vehicle information.

A. ID / PW Resetting (Recuperar Usuario y Contraseña)

- In case of forgetting ID(Email) or Password, you can use these functions.

1. Find ID

1. ID/PW Resetting button

2. Enter VIN

3. Enter telephone number

4. ID (Email) finding is completed

2. Password Resetting

1. Password resetting

2. Enter ID(Email)

3. Enter VIN

PW resetting Web URL is sent to your email address

(Web) PW resetting screen

You can log in MyKIA+ App after resetting the password

The background features a dark blue gradient. In the upper left, there is a cluster of small, light blue dots. A large, faint, light blue circle is centered in the upper half of the image. In the lower left, there are two more clusters of small, light blue dots, one of which is shaped like a triangle.

A. General-Vehicle User Screen

- It includes vehicle information, driving history, and call center contacting service in case of emergency.

- My KIA+ Menu
- Making a call to KIA service center
- Short cut menu
- Hidden Menu

- App setting
- Log-out

- Remote Control Screen
- Air-conditioning control
 - Engine Start/Stop
 - Door Unlock/Lock
 - Emergency light control
 - Horn control

B. EV6(Electric Vehicle) User Screen

- It includes vehicle information, driving history, and call center contacting service in case of emergency.

Home

My KIA+ Menu

- Remote control screen
- Remaining battery level (%) and travelable distance (km)

- Remote control screen (charging)
- Charging status
 - Remaining time to full charge
 - EV READY/STOP control isn't activated when it is charging.

A. Push Message

- Provides notification function - reservation confirmation, cancellation, repair status.

Hidden Menu

- Go to the inbox

List of messages

- Delete the message

Message details

- Run WhatsApp

This function is activated only for reservation messages

- close the page and move to message list

B. MAP / FAQ

- Mapa : Show your location on a map. Use Google navigation to find your location.
- Preguntas y respuestas frecuentes

- Search
- Show your location

The background is a dark navy blue. In the upper center, there are three concentric circles in a slightly lighter shade of navy. In the top-left corner, there is a triangular area filled with a pattern of small, light-colored dots. In the bottom-left corner, there is a larger, irregular shape also filled with a pattern of small, light-colored dots.

4. My Car

A. Reservation (Servicio)

- You can make a repair or maintenance reservation to a dealership through phone calls or app.

My KIA+ Menu

1. Click 'Servicio'

Reservation/Repair status

2. Reservation history

3. Move to reservation page

Reservation/Repair status

4. Repair status

5. Reservation details

6. Update button

B. New reservation (Nueva cita)

- Book the service with user information, vehicle information, reservation type, and reservation date

1. Check user information

2. Check vehicle information

3. Select dealership

4. Select type of service

5. Add notes

6. Select date

7. Select options for transporting the vehicle

A. Maintenance requirements (Mantenimiento programado)

- You can make a repair or maintenance reservation to a dealership through phone calls or app.

My KIA+ Menu

- Click 'Mantenimiento programado'

- Vehicle information
: VIN, Model, Engine Type
- Select criterion (distance or purchase date)
- Enter mileage
: maintenance requirements appear

- Select purchase date
: maintenance requirements appear

A. Cost Management (Control de gastos)

- Provides a function to record the vehicle operation cost

MyKIA+ Menu
1. Click 'Control de gastos'

2. Select date
3. Select category
4. Add cos management history
5. Total cost
6. Check details

1. Add receipt file
2. Enter information

1. Check details
2. Edit
3. Delete

A. Accident Assistance (Asistencia de Accidente)

- ◆ Provides function to record accidents.
- ◆ This would support you to leave evidence of accidents.

MyKIA+ Menu

1. Click 'Asistencia de Accidente'

List of accidents

1. Add accident
2. Accident information
3. Delete or edit history

Screen for adding accident

1. Date and location of accident
2. Other party / witness information
3. Upload my vehicle photos
4. Upload other photos
5. Add notes

A. Warranty (Garantía)

- ◆ Provides information according to the warranty period

MyKIA+ Menu
1. Click 'Garantía'

1. You can change date of purchase
2. Items under basic warranty

The background is a dark navy blue. It features a large, faint, light-blue concentric circle pattern centered in the upper half. In the top-left and bottom-left corners, there are clusters of small, light-blue dots arranged in a grid-like pattern, creating a textured effect.

5. KIA LINK

A. Drive Management Dashboard (Tablero de Manejo)

- It provides information about driving results like a dashboard. It will help you drive economically by checking your driving habits. (※ The module must be connected to vehicle to use this function.)

MyKIA+ Menu
1. Click 'Tablero de Manejo'

Display history by period
1. daily/weekly/monthly
2. Number of driving / travel distance / travel time/ driving habit
3. Efficiency / sudden acceleration/ sudden brake / sharp curve / inertia drive
4. Driving velocity statistics – Maximum / Average

Screen for EV6 user

If the module is not connected to the vehicle, access failure message appears.

A. Driving Information (Información de Manejo)

- ◆ Provides the driving information of user.
- ◆ You can check the driving status in real time. The driving information is the same as the cluster.

MyKIA+ Menu

1. Click 'Información de Manejo'

Instrument panel

1. ODO (km) counter - RPM /
velocity/ fuel quantity
2. Fuel efficiency / driving habits
/ current driving distance and driving
time

Screen for EV6 user

If the module is not connected to the vehicle, access failure message appears.

A. Monthly Report (Reporte Mensual)

- Provides monthly information about the vehicle

MyKIA+ Menu
1. Click 'Reporte Mensual'

Monthly information

- Details
1. Vehicle information
 2. Items for diagnosis
 3. Results of diagnosis
 4. Driving information
 5. Driver's habit
 6. Return to the previous screen

A. Driving History (Historial de Manejo)

- ◆ Provides history of user's driving.
- ◆ Record the start and the end of driving.

(※ Start means driving with engine on and end means couples of minutes later after engine off)

MyKIA+ Menu

1. Click 'Historial de Manejo'

Driving history

1. Display history by dates
2. Delete history

Screen for Details

3. Show driving route on map
4. Driving information
5. Maximum speed/ average speed/ sudden brake/ sudden acceleration
6. Return to the previous screen

A. Vehicle Diagnosis (Diagnóstico del vehículo)

- Provides function to check the vehicle status.
- If there is a problem, DTC (Diagnostic Trouble Code) appears.

MyKIA+ Menu
1. Click 'Diagnóstico del vehículo'

Screen for diagnosis
1. DTC Inspection
2. Guide for checking vehicle status before diagnosis
3. Start diagnosis – after vehicle status is checked

1. DTC history
2. DTC

If the module is not connected to the vehicle, access failure message appears

B. Tire pressure (Presión de Neumáticos)

- Provides Tire Pressure Monitoring System (TPMS).
(※ If the tire pressure is lower than normal, result is shown in red .)

MyKIA+ Menu
1. Click 'Presión de Neumáticos'

Tire pressure screen
1. left front wheel
2. right front wheel
3. right rear wheel
4. left rear wheel

If the module is not connected to the vehicle, access failure message appears

C. Battery status (Estado de la Batería)

- Provides information of the vehicle's remaining battery capacity.

MyKIA+ Menu
1. Click 'Estado de la Batería'

Battery status screen
1. Remaining battery (%)
2. Battery status – efficiency/ voltage / current

If the module is not connected to the vehicle, access failure message appears

The background is a dark navy blue. In the upper left corner, there is a triangular pattern of small, light-colored dots. In the center, there are three concentric circles of a slightly lighter shade of navy blue. In the lower left corner, there is another triangular pattern of small, light-colored dots, similar to the one in the top left.

6. FIND MY KIA

A. FIND MY KIA

- ◆ Provides function to track the location of my vehicle with VRS module installed on the vehicle.

(※ VRS module is required to be purchased separately. This function is available connecting with KSA module.)

1. Button for checking vehicle location in real time
2. Making a call to insurance company

Pop up - calling to insurance company

A. Guard Mode (Modo de Guardia)

- Provides function to check Engine On status with VRS module installed on the vehicle. It also sends push message to user. (※ VRS module is required to be purchased separately. This function is available connecting with KSA module.)

List for Registered Guard Mode

1. Select a vehicle
2. Set guard mode – change setting
3. Add new guard mode

Pop up for vehicle selection – display list of owned vehicles

Add or change guard mode

1. Vehicle to set guard mode
2. Set date
3. Set start time
4. Set end time
5. Set days
6. Add button

A. Geo-fence (Cercos Virtual)

- Provides Geo-Fence function with VRS module installed on the vehicle.

(※ VRS module is required to be purchased separately. This function is available connecting with KSA module.)

1. Set a range
2. Display range on the map
3. Add Geo-fence
4. Delete Geo-fence

Pop-up for setting
range per 100m

Pop-up for saving the setting

The background is a dark navy blue. In the upper left corner, there is a triangular area filled with a pattern of small, light grey dots. In the center of the page, there are three concentric circles of a slightly lighter shade of navy blue. In the lower left corner, there is another triangular area filled with a pattern of small, light grey dots, similar to the one in the top left.

7. Promotion

A. Promotion (Promoción)

MyKIA+ Menu
1. Click 'Promoción'

Screen for promotion list
1. Event status
2. Move to details
3. Event period
4. Check winners (This button is activated when the event has winners)

1. Details of events
2. Button for sharing

1. Information of events
2. List of winners

The background is a dark navy blue. In the upper center, there are three concentric circles in a slightly lighter shade of navy. In the top-left corner, there is a triangular pattern of small, light-colored dots. In the bottom-left corner, there is a larger, more complex pattern of dots forming a series of overlapping, angled shapes.

8. Setting

A. My Profile (Mi Perfil)

- It provides account information, password change, and membership withdrawal.

My KIA+ Menu
1. Setting button

Screen for setting
1. Account information (name / vehicle information)
2. Move to "My Profile"

1. Withdraw membership

2. Change user information

A. My Car (Mi auto)

- You can check registered vehicles and change information of them.

Screen for Setting

- Click "Mi auto"

- Select registered vehicles
- Vehicle information

Detailed information

A. App Setting (Ajustes de la aplicación)

- You can customize shortcut menus, enable or disable push notification and biometric option.

Screen for setting

- Click "Ajustes de la aplicación"

1. Shortcut menu setting

2. Enable/disable push message notification

3. Enable/disable emergency support notification

4. Enable/disable biometric option

Customize shortcut menus (choose up to six)

A. App Information

1. Mi Conectividad : Displays the status of the module connection.
2. MyKIA+ Versión : Provides version information of MyKIA+.

(※ If it is not the latest version, it is recommended to update.)

1. Click "Mi conectividad"
2. Click "MyKIA+ Versión "

- Mi conectividad
1. Move to connect module
 2. Module connection status - Bluetooth / Module / Firmware Version Information

- MyKIA+ Versión
1. MyKIA+ app version
 2. Module firmware version

GIT
