

# NOTIFICATION

**\* IMPORTANT STUI & GDS NEWS \***

Hyundai Motor America and GIT-A would like to inform its users that Android Operating system 14 is coming soon. However, GIT-A is still testing software compatibility with this new version of Android. Until further notice, **DO NOT** update to Android 14! To ensure that your tablets don't update automatically, turn off the "Auto download over Wi-Fi" in your tablet's settings menu.

**We will inform all users on any progress and updates during Q1 of 2024.**

**If you have any questions, you may contact GIT-A at (888) 437 -0308**

**Thank you for your continued support.**
